SOMETHING for NOTHING?

Not in real life!

And the age-old law holds true in the matter of Gasoline, too

You know that the finer grade of gasoline—so-called "premium gasoline"—does make your motor perform better. You know, too, that genuine premium gasoline sells at a slightly higher price. It has to, because superior quality costs more to produce.

Then, some day, you hear of a "premium gasoline at regular gas prices." Are you lured by that age-old claim. *Something for nothing?* If you are, you're doomed to disappointment.

Sohio Ethyl Gasoline is *genuine* premium gasoline. No finer motor fuel has ever been produced.

Whether your car be old or new you'll find that it runs better, smoother, more powerfully—has more getaway and is positively free from "knock"—when you put nothing but Sohio Ethyl Gasoline in your tank.

Yes, you pay a little more for Sohio Ethyl. It's worth every cent you pay! Try it. Then you'll know why Sohio Ethyl far outsells any other gasoline in Ohio.

Acids In Stomach Cause Indigestion

Medical authorities state that over nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food acids, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. They irritate the stomach lining and instead of getting from any drug some dissolved Magnesium and take a teaspoonful of powder or four tablets in water right after eating. This sweetens the stomach, prevents the formation of acids and there is no sourness, gas or pain. Dissolved Magnesium (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesium for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion—Adv.

Licorice-Flavored Greens Likely To Prove Popular

A NUMBER of people who may be a little bit out of the ordinary in their tastes, but who are not out of the ordinary in their appreciation of the value of a vegetable in their diet, are likely to find a new and interesting way to eat their greens. Licorice-flavored greens, which have been developed by a vegetable scientist, are likely to prove popular. These greens are made from a special variety of green beans, which are grown in a special soil and are treated with a special process. The result is a green bean that has a licorice flavor, which is both sweet and savory. This flavor is not only pleasant to the taste, but it is also good for the health. Licorice is known to be a good source of vitamins and minerals, and it is also known to be a good source of fiber. The licorice-flavored green bean is a healthy and delicious addition to any diet. It can be eaten raw, or it can be cooked. It can be eaten as a side dish, or it can be added to a salad. It can be eaten as a snack, or it can be eaten as a meal. The licorice-flavored green bean is a versatile and healthy food. It is a food that is both good for the taste and good for the health. It is a food that is both new and interesting. It is a food that is likely to prove popular.

STUDENTS RULE

Gallon High Students Control Administration of School for Day.

GALLON, April 18—"Student Day" was held yesterday in the Gallon High school when the students took over the control, directing and teaching of the high school. Kenneth Wintour was elected from the senior class to act as student principal; and Marjory Bosler was elected to serve as student assistant principal. Each regular class elected their own student teacher to teach the class for the day. The regular faculty teacher assisted the student teacher in making out the lesson plans and the procedure methods. The whole enterprise proved very enjoyable to students as well as teachers and in many ways was educational in effect. This enterprise has been adapted in many schools as an annual event.

"KONJOLA HAS NO RIVAL IN MY ESTIMATION"

Clothing Designer Is Enthusiastic Over This New and Different Medicine

MR. WILLIAM GOLD

"Almost a year I suffered torments from indigestion," said Mr. William Gold, clothing designer, 1900 West Superior avenue, Cleveland. "The gas, bloating and pain after every meal was so intense that I felt that I could not bear it a minute longer. I spent hundreds of dollars seeking relief, but no medicine nor treatment did me any good. My right leg was swollen to three times its natural size, and I lost much time from work."

"I was just about to give up trying to get better when my attention was attracted to Konjola. Well to sum up my experience briefly, I took six bottles of Konjola and I am back at work every day, feeling fine and without a trace of my former health troubles. I gained ten pounds in six weeks. Sometimes I can scarcely believe such a thing possible, but this is exactly what Konjola did for me."

Konjola goes quickly to the source of the ill of the stomach, liver, kidneys and bowels, and of rheumatism, neuritis and nervousness. When taken over a period of six to eight weeks the results will amaze those with the most stubborn ailments.

Konjola is sold in Marion, O., at Stump & Sams drug store, and by all the best druggists in all towns throughout this entire section.—Adv.
